

26 Billion Miles & Counting

Ex-Guard® already protects billions of miles every year on more than **30%** of Class 6-8 trucks, so fleets have demanded that we offer our one-of-a-kind, high-tensile steel construction with Ex-Guard® EVRCoat™ PVC coating for their pickups and vans. Ex-Guard® fleets have seen a reduction in their towable accidents by **80%** and up to a **97%** reduction in front end replacement parts.

SENSOR GUIDE

*Additional accessories or aftermarket products placed in front of sensors will interfere with the safe operation of the vehicle. For ClearZone® compatibility and setup, see installation instructions. Some products may require the use of Ex-Guard® Sensor Caps for ClearZone compatibility.

BUILT TO WITHSTAND A COLLISION & KEEP YOU DRIVING!

Constructed of extremely strong high-tensile steel, finished with a corrosion resistant and maintenance-free Ex-Guard® EVRCoat™ (PVC) coating.
